

Python

Create and run python program

Saurabh Shukla (MySirG)

Agenda

- ① Write your first Python program.
- ② Using vs code

Write your first Program

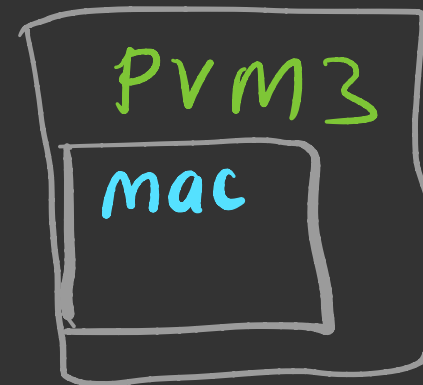

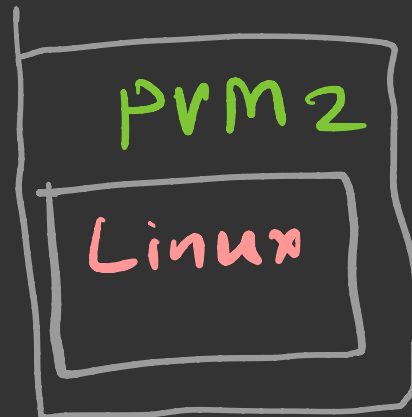

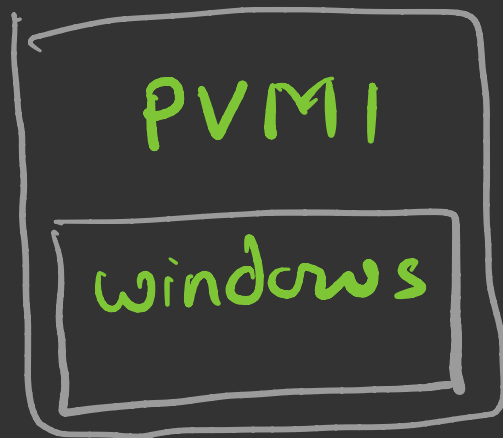

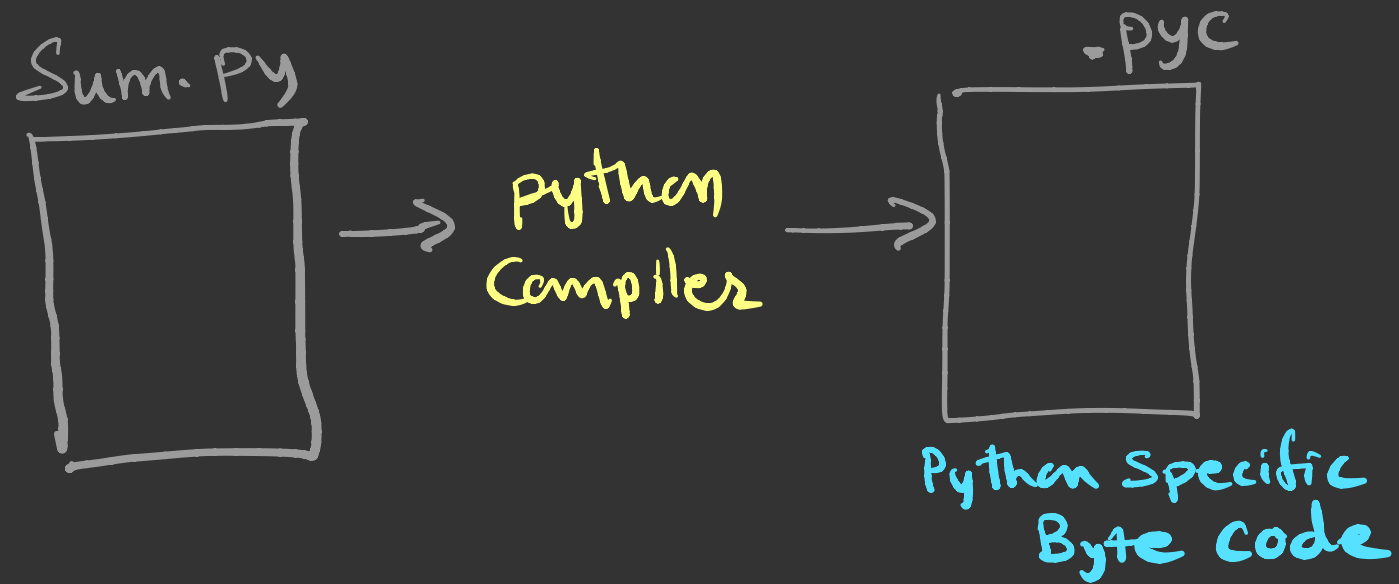

First.py

```
print("Enter two numbers")  
a= int (input())  
b= int (input())  
  
c=a+b  
print("Sum is", c)
```

Using VS code

- ① Create source file using vs code
 - Open VS code
 - Create new .py file
 - Write program
- ② Run through vs code
 - Output will come on terminal

How to develop a software using Python?

How to create .pyc file?

① Automatically created for imported module

② using command

> python -m filename.py compile

> python -m compileall
